

FOR IMMEDIATE RELEASE

Mergent Intellect™ Job Search Solution

Mergent Intellect™ Now Offers Ground-Breaking Resources for Job Search Information

April 23, Charlotte, NC – Mergent, Inc., today announced the addition of a job/career search platform to Mergent Intellect's comprehensive database. Mergent Intellect's Integrated Job Search Solution introduces a smart approach to your career search. The combination of Intellect's of 90 million+ companies together with its powerful search strategy uncovers positions at companies that others not using this approach cannot find.

John McCrudden, Director of Career Services at Marymount California University and owner of uscareerwebinars.com, states, "National Job Boards attract millions of career seekers. Mergent Intellect's Job Search Solution demonstrates how the job-seeker can find jobs others have difficulty locating – particularly opportunities with small and mid-size employers. Less than one percent of companies have over 1,000 employees, and that is where everyone is applying for jobs. Mergent Intellect smartly positions career seekers with resources to locate jobs in the Hidden Job Market...the 70 percent of jobs not advertised on Job Boards in companies with 1,000 or fewer employees."

Fred Jenkins, Executive Vice President at Mergent, says, "This new enhancement is one example of how Mergent continues to advance our comprehensive data-set to help our customers satisfy their research needs, including integrating innovative methodology into our comprehensive company database."

Mergent Intellect is a highly flexible web-based application that features a deep collection of worldwide business information that enables companies to generate insightful business intelligence. Coupling Mergent's expertise in developing products for the reference marketplace with D&B® private company database, Mergent Intellect offers new and existing clients a unique opportunity to access private and public U.S and international business data, industry news, facts and figures, executive contact information, access industry profiles and much more. Additionally through Mergent's partnership with WhitePages Pro, clients now have immediate access to contact information for over 200 million U.S. consumers. This enhanced search tool features specific information – name, address, previous address, age, number of household members and reverse phone number lookup capabilities – another valuable source of business insight.
